SUBJECT: Army Creek Landfill Phase III - Round Two

DATE: December 7, 1978

FROM: Ramon G. Lee *Ray*  
Chief, Water Supply Branch

TO: Al Montague, Army Creek Project Coordinator

The last round of activity related to ground water sampling at Army Creek Landfill included a commitment to schedule an identical second round of Phase III sampling six months later. (memo attached: L. Miller to O. Villa - 10/25/77)

The first round of Phase III sampling took place 10/31/77 which places the second round of sampling at about 4/30/78. To my knowledge, this second round of sampling has not yet taken place.

Is it still the Agency's intent to conduct a second round of sampling? I would be interested to know any future plans for monitoring or resolution of the Army Creek Landfill problem.
